Inspect Site Caution

You **MUST call Miss Dig at 811 or (800) 482-7171 at least 4 days before installation.**
They are a free service that will mark buried utilities on the property.

Prior to assembly be sure to look around are for obstacles, pipes, wires, sprinklers, etc.

****IMPORTANT****

Check guy ropes periodically for tightness and maintaining of good condition. Stakes provided are for average soil conditions. Sandy soil or asphalt may require additional staking. Proper installation suitable to site conditions is the responsibility of the renter.

Assembly Instructions

1. Layout at Site

Spread drop cloths and unroll canopy at exact position of desired finished assembly. Any sharp objects which must remain on site under the canopy should be padded and taped.

Assemble side poles and lay straight out from each pole hole in canopy. Drive a stake 1'0" from the end of each pole. The stake must be driven through the ring attached to each guy rope as shown.

2. Raise Side Poles

Start at opposite corners.

Insert side poles into pole holes and raise so that the bottom of the poles slat toward the center of the canopy.

Adjust guy rope.

Continue with the other two corners then sides.

3. Raise Center Pole

Assemble three piece center pole and insert into center pole hole.

Raise to upright position and tie off jump rope to pole.

4. Side Pole Adjustment

Tighten guy ropes and then set side poles to upright position.

Adjust pole positions and guy rope tension to properly pull out canopy.

Protective covers are recommended for all stakes.

5. Take Down

Loosen all guy ropes.

Spread drop cloths.

Reverse steps 1 through 4 for disassembly.
