****IMPORTANT****

Never fold up the canvas while it is wet. Allow it to dry thoroughly before storing.

Fold the canvas inward to help protect it and keep it clean.

All parts must be returned with game for deposit to be refunded.

SAFETY INSTRUCTIONS

1. Be sure that there is plenty of clearance between the player and spectators.
2. Keep spectators clear from the sides and back of canvas to prevent them from being struck by a deflected or errant puck.
3. If using the game outdoors, it is strongly suggested that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement. If there is a breeze, use sandbags with the stakes. (You must provide your own sandbags)
4. NEVER USE THE GAME IN STRONG WINDS OR LIGHTNING!!
5. Use caution when setting up or taking down the game. The sections of tubing can come apart and fall down causing injury.
6. Use only the items provided with the game for use.

ASSEMBLY INSTRUCTIONS

1. Select a level area to operate the game with plenty of room to allow for a line to form.
2. Place the smaller end of each of the 44.5" length of tube into end of the 41.5" length of tube. Repeat this step for the remaining 6 sections of tube. When finished, there should be 4 lengths of tube 86" long.
3. Put the frame together using the "Elbow" fittings at the top of the frame and the "Four-Way" fittings at the bottom.
4. Place the 36" length of tube into both sides of the "Four-Way" fitting, with the rubber grips pointing out. This will allow the frame to be stood up.
5. Be sure to tighten down the fittings using the small bolts on them.
6. Attach the canvas to the framework using the Velcro straps.
7. If using the game outdoors, it is strongly recommended that you use the stakes provided on either side of the bottom supports. Use sandbags on pavement. If there is a breeze, use sandbags with the stakes. (You must provide your own sandbags.)
